PRODUCT AND FEATURE GUIDE

2021

ABOUT US

Taşpınar Plastic is a young, dynamic and visionary company that stepped into the sector in 2002 with the manufacture of Baby Walkers in a 200 m2 closed area in the production of children's equipment.

Our company is proactive in the baby walker market in line with its principles, and is frequently mentioned in the market with the import and wholesale of plastic raw materials. We are constantly developing with the benefits of technology and the new age, and we strive to be the best in the market. In addition to this, we are always trying to catch up with the new era with our investments in various fields.

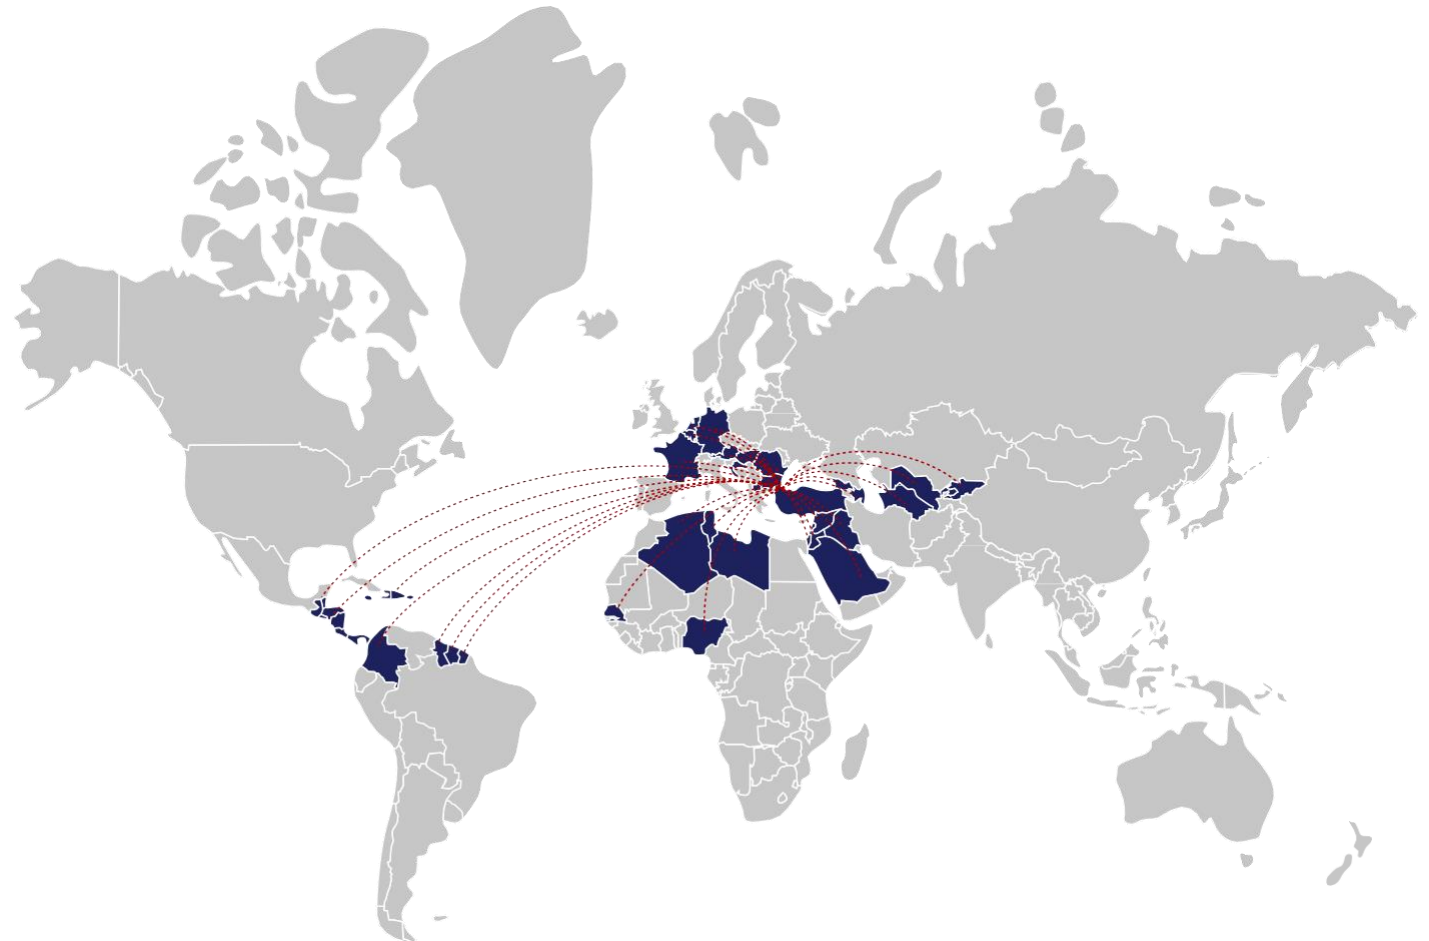

Our most important goal is to meet the needs of babies and parents at the optimum level and to satisfy their sensitivities primarily. For this, we are in search of day and night with our 5200 m2 production area. As Taşpınar family, we take our business seriously, and we take care not to compromise on quality with our TSE product quality certificate. Our motto is: Environment, Health and Safety. Our company continues to work to expand its product range and improve product standards day by day.

G O A L

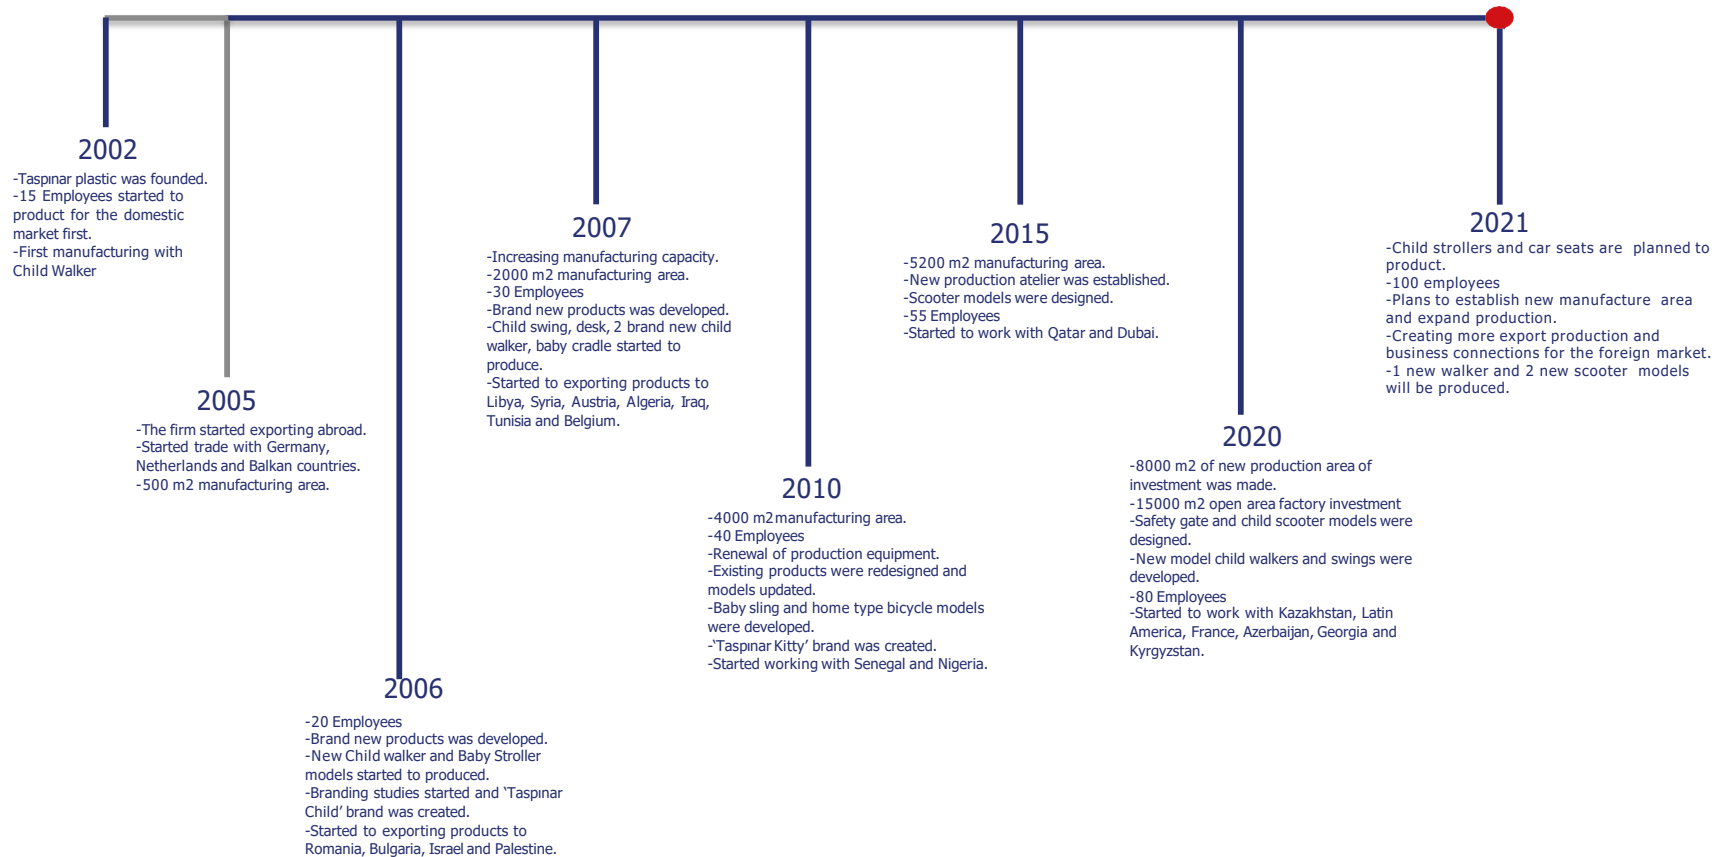

Globalized environment as the 2000s and, starting in Turkey market to competition; We aim to progress in the understanding of producing our own products with both high quality and competitive prices in the world.

We plan to increase both our diversity and our production area with the new 15000 m2 place that we have added to our production area as of 2021. We purpose to produce 22 different products by 2025 and at least 30 product types by 2030.

We are working to increase our existing sales volume between 8 - 10 million dollars to 15 - 20 million dollars by 2030. With the developing technology, we plan to be faster and more efficient by focusing on automation, our investments we have made and will make.

HISTORY

We started as a family business with a baby walker model in 2002 to produce products that meet European standards for health criteria for children and to open up to the world. Our minor trade movement, which started domestically over time, continued with both capacity and diversity increased in the following years.

Our work abroad, which started with only a few countries in 2005, continues with Europe, Latin America and the Middle East countries in the process until today.

We aim to carry our company forward by increasing our production capacity and product range in 2021 and beyond by making new business partnerships.

B R A N D S

We have created new brands with the new children's equipment models and we have developed over time.

We aim to take place among the world brands in this sector with our own brands.

We produce not only with our own brands, but also with the brands of the companies we work with.

SAFETY GATE

UNICARE BABY SAFETY GATE

TP 200

The Monodi safety gate consists of a quality metal body and plastic parts. The safety gate, designed for using in all doors, stairs and similar transition areas between 76-80 cm.

Moreover, it can be easily adapted to wider areas thanks to its extension parts.

Compliant with EN 1930: 2011 and EN71-3 standards accepted by the European Union.

The product deserve admiration with its quality and performance.

The product, which aims to protect the children from many dangers by limiting the entrance to areas such as kitchens, gardens, stairs, balconies, and making the parents comfortable, is also suitable for limiting the domestic movement of pets.

The special, safe and sturdy double lock mechanism that allows opening and closing easily.

The fact that it can be opened 90 degrees on both directions, this features make the product even more useful.

The product can be installed within 5 minutes no need for screws or drills.

Material: Metal + ABS

BARRIER

UNICARE BED BARRIER RAILS

YB 120

To protect your children from rolling over the bed, we develop this special bed rail guard for you.

Exquisitely designed structure coming with fold down function makes it useful, practical and essential.

Parents will love and use this baby bed rail during children's bedtime. To install the bed rail, all you must do is to follow the precise instructions, cover with the mesh and fix it by the locks.

The rail is easy to fold by pressing the buttons on both side, so that parents can sit comfortably on the bed.

Not only is the breathable mesh fabric in a neutral colors with elephant print and we have made sure that the bedrail is versatile and suits most beds, with a 59 inches / 1.5M length that is perfect for beds up to king size, at the same time fitting mattresses between 1.2-9.5 inches / 6-25CM thickness.

To make it safer, we use a premium mesh material, soft, durable so it will not break and much ventilated.

Will softly stop your children from falling.

This product is only for one side. If your mattress is heavy and thick enough, you may not need screwing it to the bed frame. Please make sure there is no gap between the rail and the mattress, or fill the gap (if over 10CM) with pillow, quilt to avoid nipping.

Protects baby when sleeping against falling or hurting.
